Fictional asbestos laboratory report LAB-B

FICTIONAL HIRING EXERCISE ONLY - NOT FOR PROPERTY OR SAFETY DECISIONS

Project ORTAM-DEMO-001 | Fictional Training Building A

Demo Materials Lab - fictional; no accreditation claimed. Received October 2 2026. Issued October 5 2026.

Synthetic bulk material microscopy style record. No sample was actually tested.

Sample	Layer	Result	Type	Content
S04	Plaster	Not detected	Not reported	Not reported
S05	Cement panel	Detected	Chrysotile	8%
S06	Insulation fragment	Inconclusive	Not reported	Not reported

S06: insufficient usable material. Result is inconclusive; further professional assessment is required. S05 quantity is not supplied by the lab.

Results apply only to the listed fictional samples and layers. They do not establish site condition, airborne exposure, remediation scope, regulatory compliance or clearance. No actual laboratory validation, signature or professional certification is represented.
